Liam Blackwell leads the Information and Communications Technology team at the Engineering and Physical Sciences Research Council, EPSRC. Since October 2008 Liam has been responsible for the development and implementation of strategy for capability in ICT research and training at EPSRC. Prior to joining the EPSRC in 2000, Liam Blackwell completed his PhD in material science at the University of Leeds and spent two years working at the technology centre of a Devon based clay mining company. At the EPSRC he has worked in the Physics Programme team, Engineering Programme team and on delivery of the EPSRC’s strategy for nanotechnology. Outside of work Liam is a keen hiker and skier.
