

Craig Sharp – Horizon Europe UK National Contact Point for Digital

Craig Sharp is the UK National Contact Point (Digital) for Horizon Europe, based in Innovate UK. National Contact Points are publicly funded and offer an accessible, free and confidential service for all types of organisations interested participating in Horizon Europe.

Originally from an engineering background (optoelectronics, manufacturing, programme management, engineering consultancy), his previous roles include Materials and Manufacturing National Contact Point (FP7 and Horizon 2020), national collaborative R&D programmes, Eureka and UK business support programmes.
